FOREWORD

Confederation of Indian Textile Industry (CITI) is the apex industry chamber of India's textiles sector representing the entire value chain from fibres and yarns to garments and home textiles as well as the textile machinery industry through its membership of 13 industry organizations from all over the country and 15 Corporate Members. CITI also has close cooperation with several other organizations, including major Export Promotion Councils in the textiles sector of the country.

CITI started publishing its textile directory in 2006 on demand from domestic and global buyers for a comprehensive source for accessing the details of manufacturers in various segments of the textiles industry of India. The first edition had the details of around 1100 manufacturers covering all textile segments and the textile machinery industry. The second edition published in 2009 covered the profiles of more than 2500 manufacturers. The third edition of the Directory was published in 2012 with the profiles of over 3600 manufacturers. Thus, CITT's Textiles Directory has been published once in every three years, 2006 onwards and every edition has been expanding the coverage to a larger number of manufacturers compared to the previous one. The 4th edition being published in 2015 keeps this tradition and is substantially more comprehensive with over 5200 entries, divided into various segments of the textiles value chain and the machinery industry. The details have been collected from primary data obtained from the manufacturers, supplemented by information gathered from Member Associations, Associate Members, Corporate Members and Show Directories.

I am happy to present you the 4th edition of CITT's Textiles Directory with entries covering units in Spinning, Weaving, Knitting, Processing, Composite Mills, Home Textiles, Garments, Textile Machinery & Accessories, Garments Machinery & Accessories and Textile & Apparel Parks. Though, basically this a directory of manufacturers, most of the manufacturers featured in the Directory are also exporting their products to various parts of the world. I am confident that this publication will serve as a useful reference book and sourcing guide for both manufacturers and traders in the country and abroad.

Suggestions from the users for any further improvement in the Directory will help us to make the future editions even better.

*Prem Malik
Chairman, CITI*
